

Aviprep

Respect for the naturalness and flavour of fresh products

Aviprep offers integral solutions for the development of fresh processed products, providing new nuances that enhance the essence of the main ingredient.

- Complete formulations that simplify the manufacturing process.
- Incorporation of ingredients with a high visual and aromatic component.
- Balanced portfolio: classic and novel formulations.

Benefits

Fusion of colour, flavour and aroma in a single solution.

Increase and enhance the organoleptic qualities of the raw product.

Obtaining a product with a higher selling price than fresh meat.

Expansion of the catalogue of fresh products, increasing the purchasing capacity of the consumer.
